

Cervical cancer
robs you of

your life.

Cervical cancer is the second most common cause of death in women across the world. In Singapore, more than 1 woman dies of cervical cancer every week. It is caused by a virus that can affect women of ALL ages.

But prevention is in your hands.

Cervical Cancer is the only women cancer that can be prevented through **Pap Smear screening and vaccination**. Come and find out how you can protect yourself & your loved ones at the **Triumph Over Cervical Cancer Talk**.
